# Color accuracy – quick and easy.

The TopMix terminal is an explosion proof color monitor and keyboard that sits between ColorNet® and Sartorius' PMA scales. It connects directly to all Sartorius PMA scales, allowing users to access the full functionality of ColorNet® color retrieval software in the mixing room.

TopMix features a vibrant, backlit color display (800 x 600). It is Internet ready, meaning if the user's computer is connected to the Internet, they can view DuPont, Nason® and DuPont Industrial Coatings product and technical information on [www.performancecoatings.dupont.com](http://www.performancecoatings.dupont.com).

## Key Features and Benefits

- Explosion proof (Class 1 Div 1 approved)
- Features fully integrated keyboard and mouse for compact functionality
- Multiple USB ports allow external devices such as a monitor, keyboard or mouse to be connected outside the mixing room
- If the computer currently has a graphics card, no special graphic adapter is required to support TopMix
- TopMix is easy to setup and can be mounted on a table top or wall

## Key Components

- Main terminal with dust cover
- Ex link converter
- Cables (20m video cable, 20m Ex link cable, 3m PC-Video cable, 3m PC-USB cable and 3m PMA scale connection cable)

## Equipment Requirements

- Computer running Windows 98 (or higher) and ColorNet software

## Color Support

DuPont's color tools are designed to work together flawlessly. From a portable color measuring system to a computerized paint pouring system, DuPont is committed to providing you with the tools to succeed.

We supply a dedicated, toll-free number (1-800-634-2614) to answer customer inquiries and provide technical support for the TopMix terminal. This support line is staffed 7:30 a.m. – 5:45 p.m. CST by experienced computer professionals.
