**PACKAGING**  
Available in ½ liter and 2.5 liter cans

**PRODUCT FUNCTION**  
Acrythane Matting Agent is designed to reduce gloss when used mixed with Acrythane XSC and A211 paint systems. The greater the addition, the lower the gloss. Large additions of Acrythane Matting Agent will reduce the overall coverage rate for the applicable paint system and may require the application of more coats to achieve the desired coverage.

**APPLICATION**  
When mixing with Acrythane 2 pack systems in ratios required to produce desired gloss levels. First add the matting agent to the base paint. Then use the ratio listed on the hardener and the amount of base paint in the matt/paint mixture to determine the amount of hardener to be added. Then add reducer/thinner as required. Mix thoroughly before using.
