Body File Sheets

No-Fil C-weight paper is popular for removing burrs and scratches, cutting down fillers, putty and old paint, and for fast, non-loading sanding of primers. No-Fil keeps the grain free to cut longer. Heavy-duty E-weight backing resists tearing and improves sanding. Available in convenient Clip-On and PSA.

Sheets

Available in both flexible A-weight and sturdy C-weight design, No-Fil Paper Openkote makes an excellent general duty sheet for dry sanding applications on metal, plastic, or fiberglass automotive surfaces. Tough aluminum oxide grain is specially spaced to resist loading for long cutting action. Effective for feather-edging, removing burrs and sanding plastic filler, and removing old paint.
