

TAPES AND MASKING PRODUCTS

MASKING TAPE / FINE LINE TAPE

Tapes and masking products... designed specifically for the professional auto refinisher.

From drawing board to body shop, all Norton tapes and masking products are tested and re-tested to establish new standards of performance that will save body shop pros time and money without sacrificing the highest degree of excellence.

Premium Masking Tape

SIZE	18mm (3/4")	36mm (1-1/2")	48mm (2")	CASE
				
DESCRIPTION	636425-05838	636425-36220	636425-36219	
55m Roll	05838	-	-	48
55m Roll	-	36220	-	16
55m Roll	-	-	36219	12

Norton premium masking tape goes on easy, sticks fast and holds tight. It conforms easily to contours and to irregular surfaces and is resistant to temperatures up to 260°F for up to 1 hour. It exhibits no bleed-through, seepage or flaking and leaves no residue when removed.

- Easy-to-see tan color
- No bleed through
- Stays in place
- No curling edges or rollback

Fine Line Tape

SIZE	1/8"	1/4"	1/2"	CASE
				
DESCRIPTION	636425-72018	636425-72014	636425-72012	
36 Yard Roll	72018	72014	72012	12

Fine Line Tape adheres to and conforms easily to contours and irregular surfaces. This tape's unique thinness allows for minimum edge build-up and leaves no residue when removed. Resistant to temperatures up to 180°F.

- "Pucker-free" cornering
- Straight edges on long runs
- Stays in place
- No curling edges or rollback

TAPES AND MASKING PRODUCTS

Cloth Duct Tape

An industrial quality silver polyester cloth tape providing excellent adhesion to a wide variety of surfaces. Highly conformable and moisture resistant. Ideal for general purpose repair applications.

DESCRIPTION	636425-78000	24
Cloth Duct Tape - Silver		

Premium Automotive Attachment Tape

SIZE	1/4" X 20 YDS	1/2" X 20 YDS	7/8" X 20 YDS	CASE
DESCRIPTION	636425-05620	636425-05621	636425-05622	12
Attachment Tape .045" Thick				

High-density gray foam tape coated with high strength acrylic adhesive on both sides with red polyethylene release liner is designed for bonding medium to large moldings and accessories. High strength acrylic adhesive provides superior adhesion to plastics, metal, and glass and painted vehicle surfaces.

- Used for attaching body side moldings, cladding, door edges, emblems, fascia rub strips, garnish moldings, interior trim panels, rocker panel moldings and pillar covers
- Instant pressure sensitive bonding
- Remains flexible at low temperatures
- Will not absorb moisture
- Conforms to irregular surfaces

Attachment Tape Adhesion Promoter

Molding Tape Adhesion Promoter is a liquid primer to improve the adhesion of acrylic foam attachment tape to exterior and interior trims involving injection molded and/or plastics (TPO, PPO, PP, PG, PC and ABS).

SIZE	220 ml CAN	CASE
DESCRIPTION	636425-05623	12
Molding Tape Adhesion Promoter 220ml brush top can		

Automotive Attachment Tape

Ideal for mounting side moldings, emblems, trim parts, and other double-coated tape applications. The black color of the tape hides well from detection. Constructed with advanced adhesive system on a closed-cell urethane foam.

SIZE	1/2" X 20 YDS	7/8" X 20 YDS	CASE
DESCRIPTION	636425-76377	636425-76378	12
Attachment Tape .030" Thick

<ul style="list-style-type: none"> Self-dispensing perforated box 	<ul style="list-style-type: none"> Easy for one person to dispense Protects sheeting from dust and dirt

With Norton Blue Sheeting, paint will adhere to the outside layer of plastic, eliminating paint flake-off, allowing for direct spray. Blue Sheeting features an easy-to-open fold pattern. All sizes come on a standard core to fit all current plastic masking dispensers, so one person can mask the vehicle alone. The cling of Blue Sheeting ensures the material adheres to the area that is to be protected. Blue Sheeting can be cut and painted along the critical edge, replacing paper in the shops. This tri-layer plastic is .4 mil thick.

SIZE	12' X 400'	14' X 350'	16' X 350'	20' X 350'	CASE

Blue Sheeting					

Application Steps

1 Lay down a tape line along the critical edge. We recommend Norton Premium Masking Tape. Be sure the entire vehicle is dry. Blue Sheeting is not to be used on a wet surface.

2 Cover the vehicle completely with Blue Sheeting. "Spray This Side" is clearly marked in English and Spanish to indicate the correct paintable surface. The Blue Sheeting will CLING to the vehicle and hold in place. Blue Sheeting can be repositioned and it will maintain its cling. One person can cover the vehicle in less than 2 minutes.

3 Use a safety razor to cut away the excess material. Cut right along the tape line. If working along a door or hood, the excess material can be folded in the door or laid over the motor for extra protection. There is no need to use paper next to the critical edge. Blue Sheeting will cling solidly to the vehicle and will not flake paint, even when hit with a blast of air.

4 Tape the Blue Sheeting in place to the tape line laid down in step 1. The vehicle is ready to paint. You don't have to waste time masking the critical edge with paper. Blue Sheeting does it all for you: clings to the vehicle, paint will not flake off and protects the entire vehicle from overspray. All in one easy to use product.
