

Medallion... cutting edge technology.

For unmatched premium performance on the job, nothing beats Norton's Medallion Cut-Off Blades. Norton's exclusive combination of high performance abrasives make Medallion Blades the ultimate choice for cool, easy cutting of sheet metal. Also ideal for heavy-duty cutting of muffler clamps, bolts and steel rods up to 3/4" thick, as well as spot weld grinding. Fiberglass reinforced with a special reinforced bond, Medallion Blades are available in three thicknesses.

Medallion blade technology can operate at a higher speed than conventional blades, even in excess of 25,000 RPMs. This ensures much cleaner, faster cuts so you increase productivity. So, whatever you need to cut, reach for the specific Medallion product for the job.

Medallion Cut-Off Blades

Medallion Cut-Off Blades deliver premium, unmatched performance on the job. Fiberglass reinforced with a special resinoid bond and available in three thicknesses, Medallion Cut-Off Blades are the ultimate choice for cool, easy, free-cutting of sheet metal, or heavy duty cutting of muffler clamps, bolts and steel rods up to 3/4" thick, as well as spot weld grinding.
