

NorZon... a legendary workhorse.

Heavy duty fibre and cloth grinding discs are preferred by body shop professionals for tough jobs like paint removal, cutting down plastic filler or prepping bare metal. Made with superior zirconia alumina abrasive, the NorZon family of products outperforms and outlasts the competition. The unique grain composition promotes a quick initial cut and actually self-sharpens with continued use.

NorZon Grinding Discs

Superior zirconia alumina abrasive makes NorZon fibre discs outperform and outlast conventional discs. A quick initial cut and a self-sharpening action continuously expose sharp, new cutting points. Its cooler-running characteristic results in reduced loading, less frequent disc change-overs, and greater efficiency and productivity.

NorKut Grinding Discs

NorKut grinding discs are made with rugged NorZon grain so it cuts fast and lasts long. Resin bonded to a unique backing which resists cracking and breaking, these discs can be cut down to any size up to the 1" core. Use the cores to grind "pinch" welds and other hard to reach areas. Two quick change mandrels allow NorKut to be used on most popular tools. 7/16"-20 thread is for use with hand held pneumatic grinders while the 1/4" mandrel is for use on automotive drills.
