

avus galaxy

Welcome to a new dimension of color. The new multi-effect paint features a fascinating sudden change of color that is extraordinarily full of contrast. Depending on the incidence of light, the shining golden green turns to extravagant rosewood, varied with aubergine and silver-colored tints.

EXCLUSIVE LINE

The circuit which inspired the color: The legendary Avus round track in Berlin was inaugurated in 1922 and supplemented by some spectacular steep bends in the mid-1930's. Avus consequently staged the world's fastest car races of the time.
