

A brilliant future.

The Art of Refinishing.

A brilliant future.

This collision repair facility uses the latest waterborne basecoat technology from Standox® – a premium refinishing system from Germany.

When used to repair your vehicle, Standox waterborne products reduce solvent emissions*, resulting in cleaner air for our community.

Standox high-quality waterborne basecoat products are leading-edge and extensively proven. The combination of Standox products and the quality workmanship performed at this collision repair facility will ensure the best possible finish for your vehicle.

Standox

*when compared to conventional solventborne basecoat systems
